

SigmaSRC, Inc. announces availability of SigmaSRC® Platform 1.6

Southlake. – June 1st, 2026 - SigmaSRC, Inc., today announced the official Release of SigmaSRC Enterprise Platform™ v1.6.

With this release of SigmaSRC Enterprise Platform v1.6, organizations can see and understand their Cyber Risk in Actual Dollars at Risk.

For too long, risk scores have told executives “*something is wrong*” without answering the question that actually matters in the boardroom:

- **"How much could this cost us?"**

With The SigmaSRC Platform v1.6, that changes.

SigmaSRC’s enhanced Risk Scoring with Financial Impact Visibility, allows organizations to see cyber risk translated into actual dollar values at risk, not just a generic score.

For the first time, executive leadership teams, CEOs, CFOs, CIOs, Boards, and the insurance industry, can gain meaningful, real-time financial visibility into their cybersecurity risk exposure.

This is a true game changer.

Cybersecurity is no longer just a technical discussion. It is a business discussion. A financial discussion. A risk discussion.

- This is the visibility the C-suite has been asking for.
- This is the context insurers need to price coverage with confidence.
- This is what turns security data into executive-level business intelligence.

SigmaSRC continues to bridge the gap between cybersecurity, operational visibility, compliance, and executive decision-making through a unified, AI-driven platform.

“We are incredibly proud of what our team has accomplished with Version 1.6”, said William (Bill) Gleason, Chief Executive Officer of SigmaSRC, Inc. “and we look forward to helping organizations better understand, quantify, and manage cyber risk. The SigmaSRC Enterprise Platform v1.6 is an important release because it delivers essential risk and value calculations supporting financial business impact analysis, as well as accompanying real-time and historical reporting. Several of our beta customers have already tested and successfully implemented this new release.”

Availability

The SigmaSRC Enterprise Platform v1.6 is available today. To request a demonstration or complementary trial, please contact SigmaSRC directly or one of the authorized channel partners. For more information, including sales and subscription plans details, visit www.sigmasrc.com.
